

WOMEN'S STYLES & OPTIONS

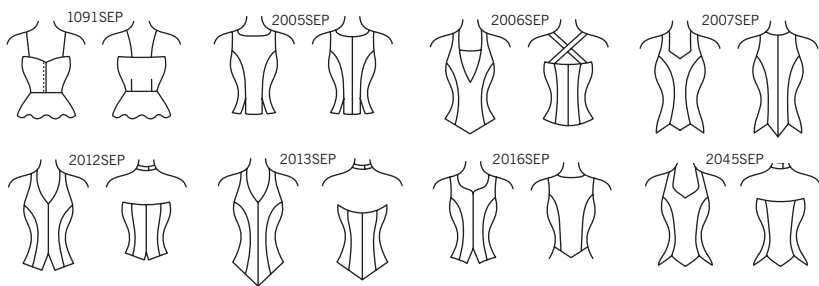

All Rivar's, Inc., styles are cataloged by number. This number represents the style (or shape) of dress bodices, as well as the style of each separate, skirt, pants, vest, etc. Bodice styles can be created in one of the following garment "types": **Panel, Attached, Slim, Empire, or Separate.** Most types (except separate) can also be created in long (full-length) dress styles. Please note that some exceptions do exist. Call us to verify your requests. Our specific line drawings of most styles show the front on the left and the back on the right with the number below each drawing. **Not all styles are shown.**
